

CV ROLLERS

Vertical Bungee Roller
System

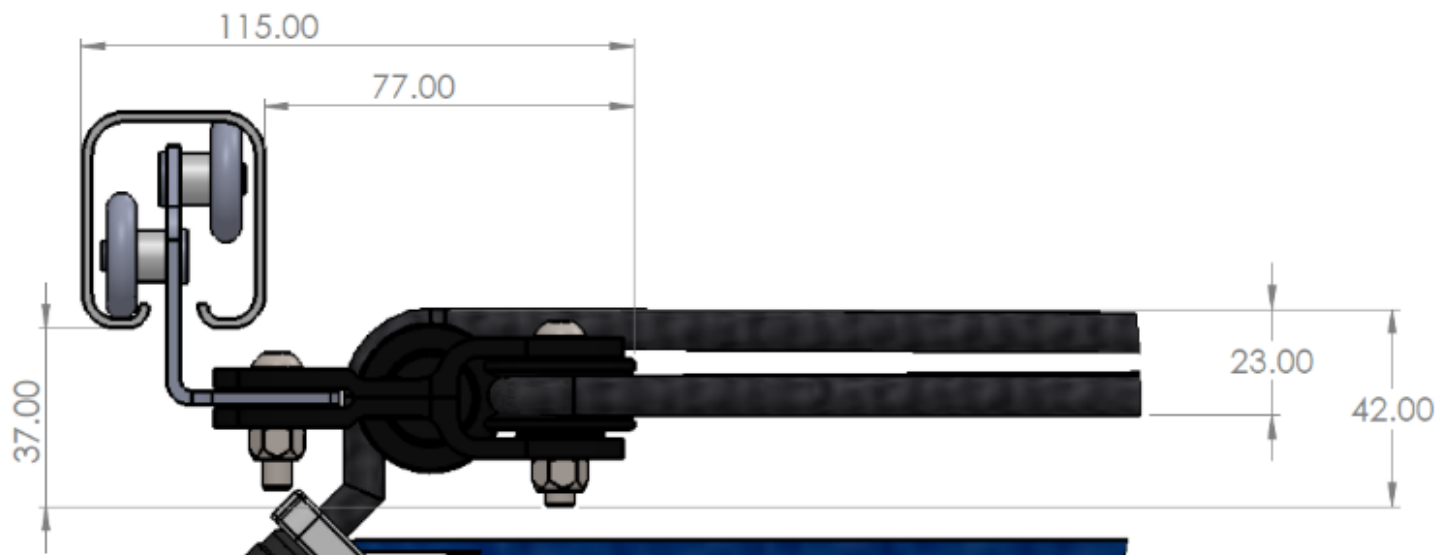

CV Rollers, a renowned leader in innovative load securing solutions, has recently unveiled their latest breakthrough product – the VBRS Vertical Bungee Roller System. This cutting-edge addition to the Slide & Carry product range has been met with resounding praise from end users for its exceptional performance and reliability.

Designed to run in vertically mounted Henderson Track, that can be fitted directly to your trailer's roof, the VBRS' is designed to take up as little space in your trailer as possible.

End users have lauded the VBRS for its ease of use and effectiveness in enhancing load restraint capabilities. The positive feedback underscores CV Rollers' commitment to delivering top-notch products that meet the evolving needs of the industry.

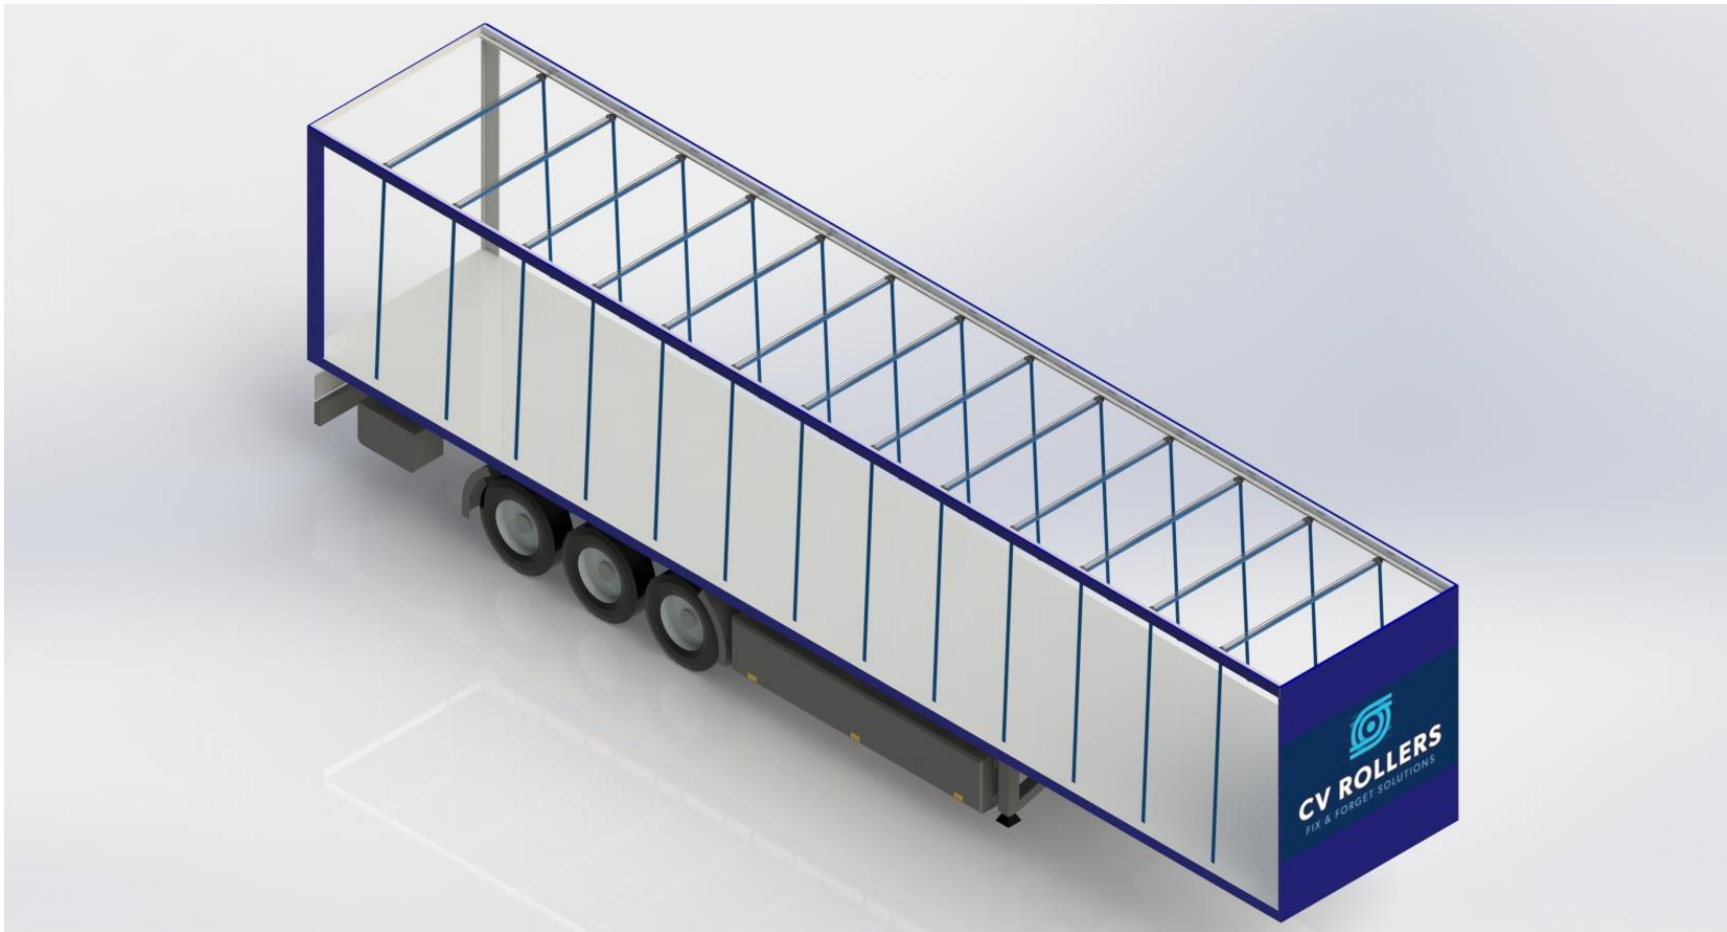

Experience the difference with the VBRS – where reliability meets innovation in the world of secure cargo transportation.

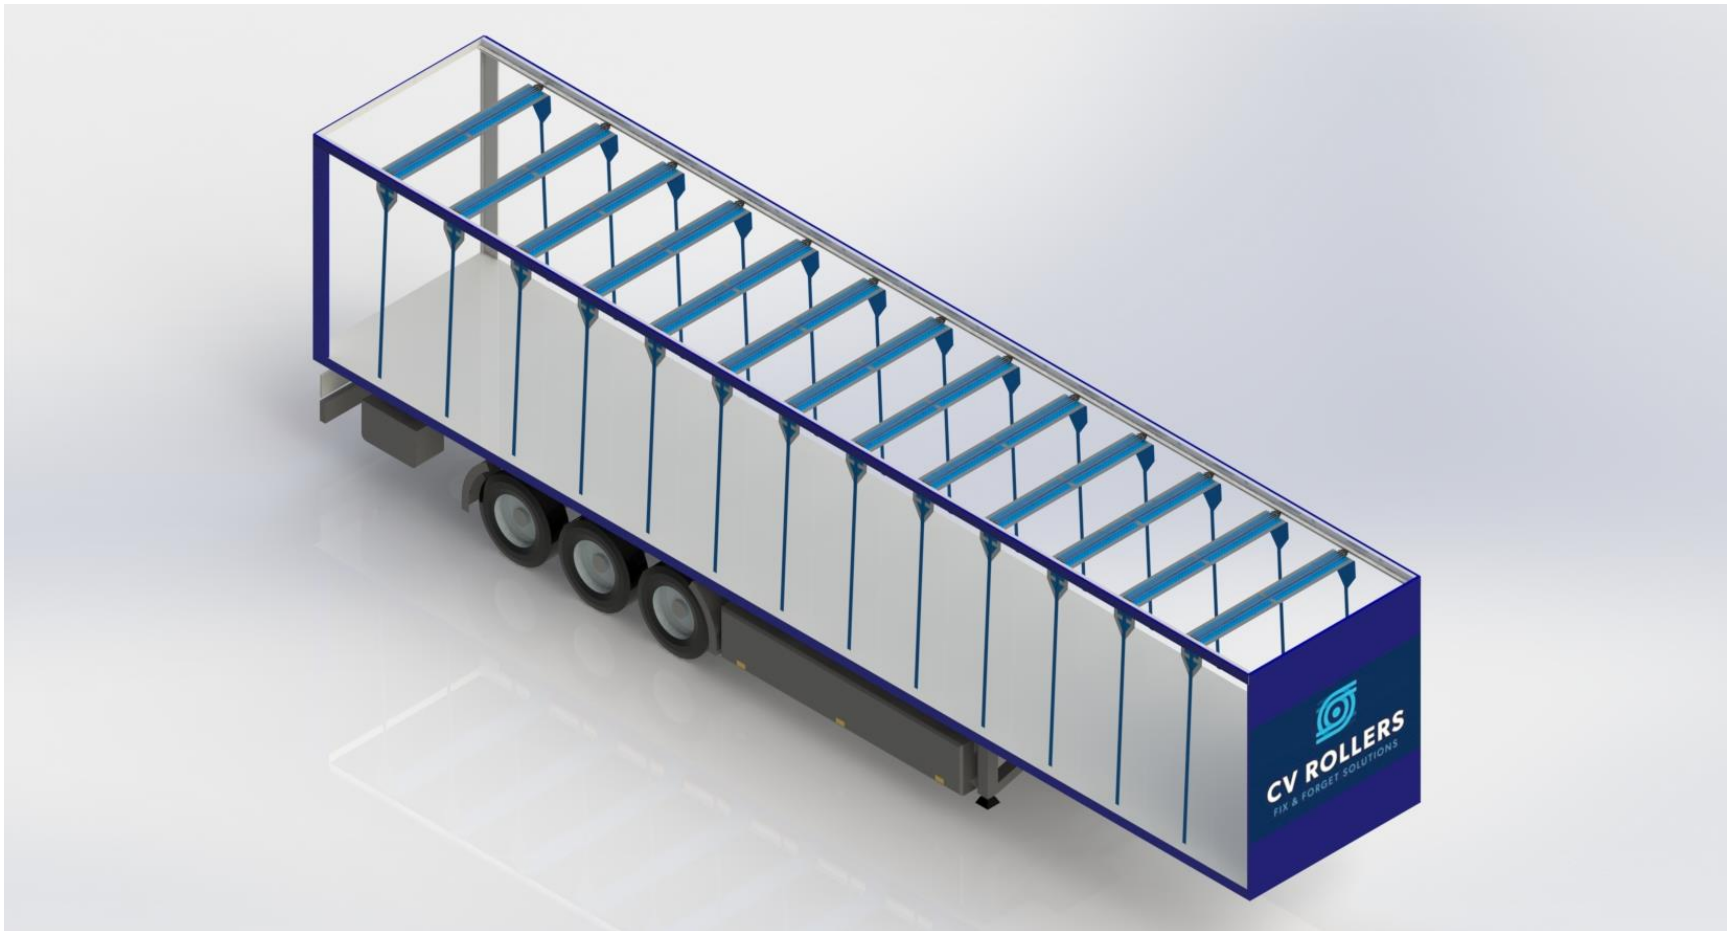

TYPICAL ARTICULATED TRAILER STRAP ASSEMBLY
